

Kenneth Clark Auguis

Front – End Development

Recent graduate with a strong understanding of front-end principles and proficiency in React, HTML & CSS, and JavaScript. Proven ability to translate design concepts into functional and engaging user interfaces. Seeking an entry-level opportunity to apply and further develop my skills in creating clean and efficient front-end solutions.

WORK EXPERIENCE

Web Design

Internship

Kristine Flores Virtual Solutions, Pampanga, Philippines

March 2025–April 2025

- Contributed to the design concepts for client websites, including Enrique Construction Services E. N. A. and Ow-Ragon.ph, applying principles of UI/UX and visual design.
- Studied and applied color theory and typography to ensure effective communication and brand consistency in webpage designs.
- Gained exposure to the initial stages of web development projects, understanding the relationship between design and front-end implementation.

Data Entry

Internship

January 2025–May 2025

Juan D. Nepumuceno(JDN), Angeles, Pampanga, Phillippines

- Performed meticulous data entry and verification, achieving a high level of accuracy and attention to detail.
- Developed strong organizational skills through systematic data input, structuring, and maintenance procedures.
- Demonstrated reliability and adherence to security protocols in handling sensitive data.
